Additional Capabilities dated 6/28/19 2-25
Additional Capabilities dated 11/03/20 2-26 to 2-30

SECTION 1: GENERAL AND ADMINISTRATIVE PROCEDURES

1.1 Revision Process

This repair station may perform maintenance, preventive maintenance, or alterations on the articles listed in a capability list, which is identified as “Capabilities List Document # BSI004” originally dated 12/13/11 and as amended.

The President is responsible for ensuring that this repair station’s Capabilities List is consistent with the repair station ratings as detailed on the FAA operations specifications section A003 “Ratings and Limitations”

This document may be further amended, but before placing any additional articles on the Capability List, the President or designee will—

1. Determine that the article is within the scope of the repair station’s ratings.
2. Perform a self-evaluation to determine that this repair station has the appropriate housing, facilities, equipment, material, technical data, processes, and trained personnel to perform the work on that article as required by Part 145.
3. Document the results of the self-evaluation on form BS-CLSE100 “Capability List Self Evaluation Form”.
4. Keep a copy of the self-evaluation assessment on file.

The President will review and approve the evaluation before the Chief Inspector revises the Capability List.

The Capabilities List is a controlled document, and once the revision has been approved by the President it will be forwarded to the FAA by certified mail to the South Florida FSDO within 5 working days of revision. The original manual is located in the office of the Chief Inspector.

Revisions to the Capabilities List Document #BSI004 and the processes for performing a self evaluation are also detailed in BSI Repair Station and Quality Control Manual Document # BSI001 section 10.

1.2 Manual Distribution and Control

This manual will be maintained current at all times. The repair station shall assign copies of its manual as required to ensure that all personnel have easy and ready access to it. The South Florida Flight Standards District Office shall be assigned a copy of this

Bearing Specialist, Inc.
FAA CRS # 4BSR915B
CAPABILITIES LIST DOCUMENT # BSI004

manual. A complete list of the assigned copies of the manual can be found in this manual on page ii.

To prevent access to information that is not maintained current, no employee may make a copy of the manual or pages from the manual.

The Chief Inspector is responsible for updating the revisions to Bearing Specialist, Inc.'s controlled copies of this manual. Revisions will be distributed to all those who are assigned a controlled copy. Revisions to the FAA assigned copy will be distributed as detailed in section 1.1 above.
